

Ultra High Print Type

## Main features:

1. Ricoh G5, Ricoh G6, Ricoh G5L, Epson I3200, Konica, Kyocera Print head Optional:
2. High Speed scheme increases speed by 30%, High Precision Scheme increases Accuracy by 15%, to meet the needs of different industries:
3. Printing Cylinder, Etching, Hot Stamping, High drop Printing and other special functions are available.
4. The patented heightening technique □ easy to print objects height up to 400 mm , such as baggage, electrical cabinets, furnishings and materials of construction.
5. Coating □ White ink, Color ink, Vanish Simultaneous printing □ saves time and effort.

## Product Specification:

|                  |  |                             |                                  |              |                          |
|------------------|--|-----------------------------|----------------------------------|--------------|--------------------------|
| Equipment model  | P20  | Print size                  | 2500*1300 mm                     | RIP software | PhotoPrint               |
| Head type ricoh  | G5/G6 Head Num 2-8 (four colors optional)  | Print mode                  | Unidirectional and bidirectional |              |                          |
| Print resolution | 600×2400DPI  | Medium thickness            | up to 400mm                      | Medium types | Hard and Flexible sheets |
| Print speed      | 8-50m <sup>2</sup> /H (G5) 13-62m <sup>2</sup> /H (G6)                             | Input format                | PDF JPEG TIFF EPS AI             |              |                          |
| Ink color        | CMYK LC LM W V free combination  | The weight of the equipment | 1300 kg                          |              |                          |
| Ink type         | Environmentally friendly UV-curable ink (no VOC)                                   | Electrical standard         | 220 V (±10%) Single-phase 5.8kw  |              |                          |
| Applicable media | Glass Acrylic Wood Ceramic tile Metal plate PVC board Corrugated board Plastic etc |                             |                                  |              |                          |
| Equipment size   | 4550 mm(length)*2050 mm(width)*1500 mm(height)                                     |                             |                                  |              |                          |
