

Classic

Main features:

1. Using HP FI-1000 industrial print heads, single printhead can print width up to 580mm, the width can reach 600mm;
2. Belt-guided continuous operation high-speed printing, 1-4 colors adjustable, 120-1800 meters per hour;
3. Ultra-wide design, suitable for uninterrupted production of aircraft boxes, cartons, paper skins, paper boxes, handbags, packaging boxes, express boxes, various A, B, C, E corrugated cardboards, honeycomb cardboards, kraft paper, thin wood boards and other products made of absorbent materials;
4. The size can be customized according to demand to meet the large and small batch production of different manufacturers, eliminating the tedious plate making process;
5. Adopt quick-drying water-based environmentally friendly ink, which dries immediately after printing, and the pattern is waterproof and anti-fouling after printing.

Specifications:

Print width	297mm/580mm	Max bed size	700mm
Print head	HP F1-1000 Industrial head	Material feeding mode	Bi-direction in and out conveyor belt feeding
Print speed	2-30m/min	Ink system	Special ink cartridge 5000ml*4 colors with automatic heating function
Print Mode	one pass printing	Data interface	RJ45 (Gigabit Ethernet port)
Ink Color	CMYK	Rip software	MainTop/PhotoPrint
Ink Type	Water-based environmentally friendly ink pigmentDye	Image format	PDF JPEG BMP TIFF
Number of heads	1-3pcs	System	Win7/Win8/Win10,X64
Print Height	0-300mm	Power requirement	220V/AC(±10%) 50Hz 1.1KW
Working environment	Ambient temperature 0°C-30°C	Machine Weight	400KG
Print Resolution	1200x300dpi 1200x600dpi 1200x1200dpi		
Machine Size	2000mm[L]x1400mm[W]x1560mm[H]
